READ—

Para 8 of Government Order No. R. 5042-89—L. R. 408-14-1, dated 11th December 1914, requesting the Chief Engineer of Mysore to submit detailed proposals for training a few educated villagers as maistries by imparting instruction to them in elementary engineering so as to enable them to prepare estimates and supervise construction work under the Minor Tanks Restoration Scheme.

2. Letter No. 2454, dated 13th March 1915 from that officer forwarding certain proposals in the matter.

3. Un-official note No. 82, dated 5th April 1915, of the Joint Secretary to Government, Public Works Department, stating that before entrusting educated villagers with the work of preparing plans and estimates, they should be trained either in the existing Engineering schools or similar institutions to be opened at District Headquarters with a proper staff and equipment for a period of at least six months.

4. Correspondence ending with letter No. 7128, dated 7th December 1915 from the Revenue Commissioner in Mysore, furnishing further information on the subject.

5. Resolution of a special Committee appointed to consider the question composed of the Revenue Commissioner, the Chief Engineer, and the Secretary to Government, Revenue Department.

Order No. R. 10495-508—L. R. 408-14-42, dated 21st April 1917.

The special Committee have carefully examined the various proposals made in the matter, and have submitted the following recommendations:—

(i) One young and intelligent candidate belonging to the raiyat class, and educated at least up to the Kannada Lower Secondary standard, should be selected from each taluk and sent for training to a special class to be opened in Bangalore and Mysore by the Chief Engineer.

(ii) A scholarship of Rs. 10 per mensem should be granted to each of these candidates during the period of training.

(iii) The period of training should be one year of which six months will be spent in class works, and the remainder on works to be selected by the Public Works Department.

(iv) After training, the young men should be sent to the Deputy Commissioners to be employed on works, wherever necessary, on a pay of Rs. 10—1—15 to be paid from the Tank Panchayat Funds or from the funds of the Minor Tanks Restoration Scheme.

(v) The charges on account of the classes and scholarships should be met from State Funds either in the Education or Public Works Department budget.

2. Government approve of the recommendations made by the Committee generally. The period of training will, however, be fixed at two years, of which one year will be spent in class work and one year on works to be selected by the Public Works Department. The Government are pleased to sanction, as a tentative measure, 100 scholarships for the training of 50 students in each of the classes to be opend at Mysore and Bangalore.

3. The Revenue Commissioner is authorised to sanction these scholarships on the recommendations of the Deputy Commissioners, preference being given to the candidates coming from taluks in which the greatest number of unrestored tanks exist.

4. The Inspector-General of Education is requested to arrange in consultation with the Revenue Commissioner and the Chief Engineer for the opening of two classes

No. R. 10495-508—L. R. 408-14-42, DATED 21ST APRIL 1917.

one at the Mechanical Engineering School at Bangalore and the other at the Chamarajendra Technical Institute at Mysore and prescribing a suitable curriculum. Additional quarters required, if any, for holding the classes, may be hired; or sheds may be constructed, if necessary.

5. The cost of the scholarships and classes to be opened as detailed below will be met out of the funds of the Education Department. Necessary provision should be made in the Budget.

6. Government do not guarantee appointments for all the young men who undergo the training, but with the large demand that exists for trained men, it is not likely they will find any difficulty in obtaining suitable employment. The selected candidates should be bound over to serve Government for at least two years, if required, or to refund the scholarships received. The Inspector-General of Education should take the needful steps in the matter.

Progress Report of the Mysore Revenue Survey Department for the year ending 31st October 1916.

READ—

The Annual Progress Report of the Mysore Revenue Survey Department, for the Survey year ending with 31st October 1916, received with letter No. 146', dated 6th March 1917, from the Superintendent of Revenue Survey and Settlements in Mysore.

* (Printed as an accompaniment.)

Order No. R. 10143-52—L. S. 44-16-3, dated 4th April 1917.

Recorded.

2. During the year under review, the personnel of the Department was largely strengthened, for expediting Revision Survey and Settlement operations, which are considerably in arrears. Three Amildars were drafted to the Department as Field Officers, and an Assistant Settlement Officer was also appointed. The newly appointed officers and a large number of officials are under training, and it is hoped that the operations of the department will be facilitated by the additional strength.

3. During the year under report, there were only three establishments (two Measuring and one Classing) working. The quantity of work turned out does not compare unfavourably with that of the previous year, 467,131 acres or 730 square miles, distributed over 30,218 fields in 389 villages, having been measured against 297,050 acres or 464 square miles, distributed over 45,679 fields in 509 villages in the year previous. The increase in the extent and the decrease in the number of fields and villages dealt with is explained as due to the operations being confined mostly to the Malnad. The same cause was to a large extent responsible for an increase in the percentage of "inactive days in the field," from 23·67 in the year previous to 31·47 during the year under review. Classification work also made fair progress, 3,185 fields with an area of 17,130 acres in 90 villages having been originally classified and 20,675 fields with an area of 75,122 acres in 442 villages having been reclassified.

4. Appreciable progress was made during the year in Revision Survey and Settlement operations. Revised rates sanctioned by Government were announced in the Belur and Maddagiri Taluks resulting in an aggregate increase of Rs. 25,104, in the revenue. Proposals for the Gudibanda Sub-Taluk were also sanctioned involving an increase of Rs. 4,995, giving a percentage of enhancement of 5, 10·48 and 6 respectively. Proposals for the taluks of Banawar and Tarikere are now under the consideration of Government. The proposals relating to the Koppa Taluk are said to be almost complete and the operations are being pushed on in several other taluks. With the additional establishments now under training, Government expect a larger outturn of work during the next year.

5. The net cost of the Department during the year was Rs. 1,26,120 which, when distributed over the area covering the operations of the Department, works out to Re. 0-3-10 per acre against Re. 0-6-3 per acre during the previous year, the decrease being due to the larger extent dealt with.

6. The working of the Department during the year was satisfactory.

Government Order No. R. 9740-1—Agri. 93-06-15, dated 4th May 1907, issuing instructions for the preparation and submission of the forecasts of wheat cultivation in Mysore.

2. Letter No. 10585, dated 15th February 1916, from the Revenue Commissioner in Mysore, furnishing his opinion regarding certain alterations proposed by the Government of India in the dates for publishing the forecasts.

3. Correspondence ending with letter No. 2184, dated 21st March 1917, from the First Assistant to the Hon'ble the Resident in Mysore, forwarding copy of Circular letter No. 210, dated 7th February 1917, from the Government of India (printed as annexure) on the same subject and requesting that arrangements may be made for forwarding to the Residency the four forecasts relating to Mysore by the 10th January, 28th February, 14th May and 20th July in each year, respectively.

Order No. R. 10077-87—Agri. 32-16-10, dated 2nd April 1917.

The Government of India have now decided to issue the first forecast a little later, on the 31st January instead of on 30th December preceding, the other two forecasts being issued as hitherto on the 15th March and 30th May, respectively, in each year. It is also proposed to issue a fourth memorandum on the 10th August.

2. The Revenue Commissioner and Director of Statistics is requested to take the necessary steps for the preparation of the three forecasts according to the instructions issued in the order dated 4th May 1907 read above, and for submitting them to Government, so as to reach the Secretariat by the 1st January, 18th February and 3rd May, respectively, in each year. The information required for the fourth memorandum should also be submitted before the 10th July.

Exd.—R. K.

No. R. 10077-87—Agri. 32-16-10, dated 2nd April 1917.

Circular letter No. 210—C., dated the 7th February 1917, from the Secretary to the Government of India, in the Department of Revenue and Agriculture, to certain Local Governments and Administrations.

I am directed to refer to the correspondence ending with your letter No. dated the on the subject of the proposed revision of the dates prescribed for the publication of the wheat forecasts.

2. In Mr. Noyce's Circular No. 22-163-1, dated the 29th October 1915 the opinions of the Local Governments and Administrations and Native States which prepare wheat forecasts were invited on the following proposals:—

(1) that the first general memorandum on wheat should, in order to enable complete sowings to be included in it, be published by the Director of Statistics on the 20th January instead of 30th December;

(2) that the 2nd general memorandum should in future be published on the 15th April instead of the 15th March and embody information regarding both acreage and production;

(3) that the final memorandum now published on the 30th May should in future be published on a date sufficiently late to admit of statistics collected for the Provincial Season and Crop Report being included in it, it being left to Local Governments, etc., to suggest a suitable date for the purpose;

(4) that the Provincial Director of Land Records should after transmitting the April forecast to the Director of Statistics send him fortnightly telegrams confirming or modifying the original estimates on receipt of which he would issue at fortnightly intervals supplementary memoranda modifying his April forecast.

3. It appears from the replies received that the first proposals have been accepted by all Local Governments, etc., concerned except the Governments of the United Provinces and the Punjab and the North-West Frontier Province Administration. The United Provinces Government has no great objection to the change while the Punjab and North-West Frontier Province suggest that dates as late as 30th January and 20th February respectively should be adopted if complete sowings in those provinces are to be included in the forecast. In regard to the proposal No. (2) the replies show that a forecast to be issued in the middle of April will actually relate to the condition of the crop about the middle of March, that is, before harvesting has commenced in some provinces. It will therefore not be possible at that time to prepare a reliable estimate of production in all the wheat-growing provinces. Moreover the bulk of the wheat trade is done in April, May and the proposed postponement of the date of the second forecast from the 15th March to the 15th April will result in depriving the trade of data which will enable them at present to form an early opinion as to what can be expected under normal conditions. It has therefore been suggested that the second forecast should continue to be issued on its present date and should be supplemented by later fortnightly memoranda as suggested by the Government of India. Similarly in regard to the third forecast it has been pointed out that the statistics collected for the Provincial Season and Crop Reports are not available in some of the provinces concerned until August. By that time, however, the wheat trade is practically over and the figures then issued will be valueless for purposes of trade. In this connection it has been suggested that instead of postponing the issue of the May forecast till figures for the Provincial Season and Crop Reports have been collected, a fourth forecast should be issued when such figures are available in order to ensure reliable statistics for future record. As to the proposal regarding the fortnightly telegrams, the Government of Bombay consider them unnecessary as the wheat crop in that presidency is almost all harvested by the 15th April. The Government of Bihar and Orissa are of opinion that no useful purpose will be served by them as the only damage possible after the 15th April, is by heavy rainfall while the wheat is still lying on the threshing floor, but that it is difficult, if not actually impossible, to frame any accurate estimate of its extent.

4. The Government of India have reconsidered the matter in the light of the replies received and I am now to communicate their decision. They are of opinion that the 31st January is the most suitable date for the issue of the first general memorandum. This memorandum will accordingly be issued in future by the Director of Statistics on that date and I am to ask that the provincial forecasts, which should include as complete sowings as possible, may be despatched so as to reach the Director by the 20th January. The second and third General Memoranda will, in view of the objections raised to the changes proposed by the Government of India, continue to be published on the 15th March and 30th May respectively and will embody the same information as is contained in them at present.

* * * * * * * * *

6. The Government of India have also decided that a fourth memorandum should be issued by the Director of Statistics on the 10th August giving the finally adjusted figures on both acreage and outturn I am to ask that for the preparation of this memorandum the Director of Statistics may be furnished not later than the 1st August with the figures collected for the Provincial Season and Crop Reports or finally adjusted figures.

Order No. R. 10427-35—Agri. 24-16-8, dated 19th April 1917.

Recorded.

2. Cattle mortality during the quarter continued to be high. There was however an appreciable increase in the number of cattle inoculated during the quarter which, Government hope, will have beneficial results.

REVENUE COMMISSIONER'S REVIEW.

Recorded.

2. The accompanying consolidated statement shows in detail the losses in cattle of various kinds in the State during the quarter under review as compared with the corresponding quarter of the previous year.

3. It is noted with regret that the total mortality was more during the quarter than in the corresponding quarter of 1915, the figures for the two quarters being 14,423 and 20,934. This is due to heavy mortality in Shimoga, Tumkur, Kadur and Hassan Districts, on account of the prevalence of "Doddaroga" and "Chepperoga."

4. The total number of inoculations performed during the quarter under review was 8,627 against 2,690 in the corresponding quarter for the previous year.

Statement showing the losses in cattle of various kinds in the Mysore State for the quarter ending the 31st December 1916.

APPENDIX.

Procedure regarding the discussion of the State Budget in the Legislative Council.

1. As soon as possible after the 12th April printed copies of the Draft Budget Estimate of the ensuing year with a brief statement explaining its salient points will be despatched to each member. The meeting for discussing the budget will be held in June.

2. Previous to the formal meeting of the Legislative Council for the discussion of the budget, an informal meeting in Committee of the whole Legislative Council will be held. At this meeting discussion will be free and informal. Additional information asked for by members will be supplied at this meeting as far as practicable if notice is given to the Financial Secretary at least a week before the meeting. The proceedings of this meeting will not be open to Press and to visitors.

3. At the formal meeting of the Legislative Council, each member will offer any observations he may wish to make on the budget, provided—

(a) that a member shall speak only once,

(b) that he shall not without the special permission of the President take up more than fifteen minutes,

(c) that the observations shall be confined to the subject matter of the budget.

4. The Financial Secretary will then reply to such points as may not have been dealt with by official members preceding him and the discussion will be closed by the President with such observations, if any, as he may consider necessary.

5. No discussion shall be permitted in regard to any subject removed from the cognizance of the Mysore Legislative Council by the proviso to Section 12 of the Mysore Legislative Council Regulation of 1907.

Order No. Fl. 6522-31—G. F. 163-16-2, dated 17th April 1917.

Recorded.

2. The operations of the year commenced with a balance of Rs. 72,27 lakhs on the 1st July 1915, as against Rs. 101,08 lakhs in the previous year and in view of the heavy strain on the treasuries during 1914-15, on account of disturbance in trade conditions and other circumstances due to the war, the treasury balances were strengthened from July to November of the year under report. Owing to this precautionary measure and to the improvement in the revenue and receipts of the year the treasuries were supplied with adequate funds and the balances in them were throughout the year in excess of the monthly minima fixed.

3. There has been a considerable fall in the amount of supply bills issued during the year which was Rs. 4,66,000, against Rs. 9,32,000, in the previous year and this is attributed to the Mysore Bank having arranged for some of its remittances to different centres by means of withdrawals out of temporary deposit of a portion of its funds with Government.

Letter No. 4422—418, ES File, dated Bangalore, 27—29th March 1917, from Rajasabhabhushana, Diwan Bahadur C. Srikanteswara Aiyar, B.A., B.L., Inspector-General of Police in Mysore to D. M. Narasinga Rao, Esq., B.A., B.L., Secretary to the Government of His Highness the Maharaja of Mysore, General Department.

I have the honour to submit the following report on the working of the Mysore Game and Fish Preservation Regulation and the Rules framed thereunder for the calendar year 1916, together with the original reports received from the several District Magistrates.

2. Two hundred and eighty-eight licenses were issued, under the regulation during the year, against the same number in the year 1915.

3. Of the 288 licenses, 236 were District game licenses, 18 District game licenses including State Forests, 9 Provincial licenses and 25 Agricultural licenses, the number of licenses taken out by Europeans or Eurasians being 137, and by Indians 151. The amount of license fees recovered during the year was Rs. 1,745 against Rs. 1,695 in the preceding year.

4. The following statement shows the details of licenses issued and the fees collected in each district.

5. Eight cases involving 34 persons were prosecuted during the year for violation of the provisions of the Regulation and Rules thereunder of which six cases with 14 persons ended in conviction, the total amount of fines realised being 63. The three cases with as many persons that were pending at the close of the previous year in the Kadur and Hassan Districts ended also in conviction and realisation of Rs. 70 fine.

6. Of the 54 licensees who had been granted permission to shoot restricted game, only two, *viz.*, Messrs. Minchen and Van Ingen are reported to have shot a bull bison each, in the forests of the Mysore District.

READ—

The District Fund Administration Reports and Accounts for the year 1915-16.

Order No. 6360-74—L. B. 61-16-27, dated 2nd April 1917.

Constitution and Working of Local Boards.—There was no change in the constitution of the Boards and the average attendance of the members at the meetings remained practically the same as in the previous year, the percentage to the total strength being seventy-six, fifty-four and seventy at the meetings of the District Boards, the Taluk Boards and the Union Panchayats respectively. The attendance of official members at the meetings of the Taluk Boards showed no appreciable improvement.

2. *Audit of Accounts and Finance Committees*—In none of the Districts, except Chitaldrug, did these Committees meet the prescribed number of times during the year, *viz.*, 12 to check the District Fund accounts as required by rules 136 and 137 of the Local Boards rules. The Committee in the Bangalore District does not appear to have checked any of the accounts, while in the Mysore District the accounts for only one month appear to have been checked. This is not satisfactory. The audit of the accounts by the Local Auditors of the Comptroller's office did not disclose any grave irregularities. There was, however, considerable delay in the disposal of the objection statements and in the submission of the accounts to the Comptroller which should be avoided in future.

3. *Financial Condition.*—The income and expenditure of the year contrast with those of the previous year as shown in the following statement:—

No.	Items	1915-16	1914-15
	RECEIPTS.	Rs.	Rs.
1	Allotment from local cess	5,51,766	5,60,678
2	Railway cess	1,09,132	47,661
3	House and shop taxes and mohatarfa	1,20,234	1,12,337

8	Fines under Village Sanitation Rules	649	547
9	Interest on investments	10,010	10,201
10	Contributions	70,160	84,193
11	Loans for Railway Construction	...	2,36,423
12	Drinking water wells fund	1,72,551	91,568
13	Deposits	31,962	29,265

	Total ...	12,71,453	13,59,996

No. 6360-74—L. B. 61-16-27, dated 2nd April 1917.

No.	Items	1915-16	1914-15
	Expenditure.	Rs.	Rs.
1	Public Works executed by P. W. D.	4,21,490	4,55,865
2	Do by Civil Department ...	1,61,219	1,37,492
3	Administration and collection	58,585	57,852
4	Conservancy and sanitation	1,18,252	1,11,557
5	Medical relief	98,398	91,592
6	Accommodation for travellers	27,194	26,534
7	Railway Construction	1,49,705	2,99,579
8	Interest on loan	19,328	14,105
9	Drinking water wells fund	71,061	8,126
10	Deposits	27,769	16,337
11	Other items	2,73,144	41,641
	Total ...	14,26,145	12,60,680

The apparent decrease in the receipts is due to the fact that no public loans were resorted to during the year as in the year previous. If this item is eliminated, it is observed that the income during 1915-16, shewed an appreciable increase chiefly under Railway Cess, Shop Tax, State Grants, etc. The large income realised last year on account of the Railway in the Shimoga District was written back by debit of the amount in the District Fund account and credit to Deposits in the State Fund accounts. The progress of well works under the rural water supply scheme resulted in an increase of the expenditure by Rs. 63,000 nearly, and this was to some extent counter-balanced by the smaller outlay on railway construction during the year.

4. *Demand, Collection and Balance.*—The main item of revenue requiring the attention of the collection staff employed by the Local Boards was the tax on houses and shops in the Unions. Out of the current demand of Rs. 1,40,031 a sum of Rs. 47,845 or 34 per cent was left uncollected while out of the arrears of Rs. 1,00,547 a sum of Rs. 66,875 or nearly 66 per cent remained uncollected at the end of the year. The arrears were heavy in all the Districts except Kolar, Tumkur and Kadur. The arrears in the Mysore District exceeded one year's demand while in the Bangalore District, they amounted to nearly two years' demand. The arrears under tolls and ferries in the Hassan District and under ferries in the Shimoga District were also heavy. Instructions have already been issued regarding the heavy arrears and Government hope that Presidents of District Boards will reduce their arrears of collectable revenue without delay and bestow greater attention to current collections.

5. *Public Works.*—The outlay on Public Works incurred in the Public Works Department was as usual mainly on repairs of roads. Out of the total expenditure of Rs. 1,13,085 incurred by the District Boards in the Civil Department, Rs. 33,831 or 30 per cent was spent in the Unions. Some of the Boards are of opinion that the repairs of roads would be more efficiently carried out by employing their own Engineering establishments, instead of entrusting the work to the State Public Works Department. Government have laid down their policy with regard to this question in para 16 (4) of their order on the Development of the Local Self Government in Mysore and it remains for the District Boards to submit definite proposals in the matter. The lapses in the budget allotment under public works executed in the Civil Department ranged from 34 per cent in the Kadur District to 84 per cent in the Hassan District. The percentages do not appear to have been calculated on the net budget grant after making allowances for transfers of funds and reappropriations. Want of timely rains for repairs of roads, late submission of bills for work done, meeting with hard soil in sinking wells, paucity of labour and of competent contractors, and want of adequate staff for supervision of works, are some of the reasons adduced for the heavy lapses. Government are not satisfied with the explanation. The lapses might have been avoided if proper attention had been paid to the instructions issued in Government Order No. 9231-521—L. B. 249-14-1, dated 22nd May 1915. Programmes of works to be executed

with sufficient number of sanctioned estimates should be also kept ready in advance in future in order to avoid delay in the commencement of the works as soon as the budget is sanctioned and preparation and payment of bills should be more prompt. Delay discourages contractors to come forward.

6. *Rural Water-supply.*—The accounts show that out of the total income of Rs. 1,72,551 under the drinking water wells fund an expenditure of only Rs. 71,061 was incurred during the year. The total unspent balance at the credit of the drinking water wells fund was Rs. 1,84,933. The progress of expenditure when compared with the large grants placed at the disposal of the Deputy Commissioners was not satisfactory. Government have issued orders separately on this subject and it is hoped that with the additional facilities now given, the District Boards will show better results in the current year.

7. *Railways.*—The District Board railway in the Kolar District was extended from Kolar to Chintamani and it has since been connected with Chikballapur. Towards the debenture loan issued by the Shimoga District Board, a sum of Rs. 40,652 was collected during the year. The question of fixing a Railway policy for this District Board is now engaging the attention of Government.

8. *Conservancy and Sanitation.*—Seventy-seven Sanitary and Assistant Sanitary Inspectors were employed for the supervision of sanitation in rural parts, and separate places were set apart for storing manure in 293 villages. In 48 villages besides the Unions, separate establishments were maintained for conserving the streets. The village sanitation rules were newly introduced into 307 villages during the year. Of 718 persons who were prosecuted for the breach of these rules 331 were convicted. On the Kolar Gold Fields 58 were convicted out of 122 persons prosecuted for the breach of the Sanitary provisions of the rules. The Government have since sanctioned a scheme for the reorganisation of the Sanitary Department and with a more organized effort, hope that improvement in sanitation will be effected in Municipal towns and rural parts in the near future.

9. *Vital Statistics.*—One lakh and five hundred and sixty-two births and 76,072 deaths were registered during the year against 98,522 and 82,308 respectively in the year 1914-15. There was appreciable decrease in the mortality from small-pox in the Bangalore, Tumkur, Mysore, Hassan, Shimoga and Chitaldrug Districts. The figures are far from being accurate and the Government are now considering the question of suitable legislation to make registration of Vital Statistics compulsory in notified areas.

10. *Medical relief.*—One hundred and nineteen Local Fund Dispensaries were subsidised in part from the District Funds during the year at a total cost of Rs. 64,949. The statistics of patients treated in the Vanivilas Hospital at Mysore have not been furnished, while in the other dispensaries the figures furnished show that 12,21,165 patients were treated against 10,89,973. No reasons have been assigned for the very large increase in Hassan and Shimoga Districts. On the recommendation of the Malnad Improvement Committee three Local Fund Dispensaries in the Shimoga District were converted into Semi-itinerant Institutions during the year. The Government will watch with interest the working of these institutions.

11. *Establishments.*—All the District Boards urge that work in their offices has increased and that the revision of the establishments is very necessary. The matter is receiving consideration in connection with the development of Local Self Government and final orders will issue early.

The Administration Report of the Shimoga District Board for 1915-16.

Order No. 6493-5—L. B. 61-16-28, dated 9th April 1917.

1. *Meetings of the Union Panchayats.*—Several Union Panchayats did not meet the prescribed number of times (12) during the year, and in some of the Unions (Kulagatta and Arabagatta, Honnali Taluk), the Panchayats did not meet at all. The explanation furnished for the omission, namely, that the Amildars could not find time to convene meetings regularly owing to the large number of Unions in their taluks is not satisfactory. They should have arranged for the meetings being held regularly by delegating their powers under Rule 37 (2) of the Local Board Rules, if necessary.

2. *Demand, Collection and Balance.*—Seventy-seven per cent of the total demand was realised during the year and the arrears were very heavy in the Shimoga, Sorab, Channagiri and Shikarpur Taluks. The large arrears especially under house-tax, deserve special attention. It is noted that necessary instructions have been issued for their prompt realisation.

3. *Public Works.*—Government note with regret the large lapse under Public Works, specially under the grant for drinking water wells under which there was a lapse of 73 per cent. Every endeavour should be made to utilise the grant to the fullest extent possible.

4. *Roads and Communications.*—It is observed from the report that many of the District Board roads are in a very unsatisfactory condition, the chief causes assigned being low allotments and non-utilization of sanctioned grants owing to late sanction of estimates. The District Board should improve their resources and action should be taken to submit the estimates for sanction early in the year. The question of allotments may be reported upon.

5. *Village Roads.*—The interest taken by the village residents in opening inter-village roads is commendable.

6. *Railways.*—Government note with satisfaction the progress made in the allotment of shares for the District Board Railways and hope that the balance of about two lakhs and forty thousand rupees out of the ten lakhs will soon be allotted. The payment of interest should be expedited.

7. *Medical Relief.*—Regarding proposed dispensaries at Karur and Tagarthi fresh proposals from the Board are awaited (*vide* letter No. 5281—Med. 40-16-17, dated 12th February 1917).

READ—

The District Fund Administration Report of the Hassan District for 1915-16.

Order No. 6496-8—L. B. 61-16-29, dated 9th April 1917.

Meetings.—The number of meetings held in the Unions of the Arsikere Taluk was very low, being seven in some unions and still fewer in others.

2. *House tax.*—The realisations from house tax fell from Rs. 8,758 to Rs. 7,892 for want of sufficient attention to collection work especially in the Arsikere and Arkalgud Taluks where the outstanding arrears were heavy.

3. *Demand, Collection and Balance.*—The total demand including arrears was Rs. 1,30,806 of which Rs. 255 was remitted and Rs. 99,098 was collected, leaving a balance of Rs. 31,453 uncollected at the end of the year. The collection work was not satisfactory in the taluks of Channarayapatna, Arsikere, Hassan, Arkalgud, and Hole-Narsipur where the outstanding balances were very heavy. The Amildars should make strenuous efforts to bring down the arrears as early as possible.

4. *Public Works.*— There was a lapse of 84 per cent, of the grant under Public Works including wells to be executed by the Civil Department. This was partly due to the late submission of bills but the main cause for the large lapses is reported to be the paucity of capable contractors having the requisite funds with command of labour. The President should in consultation with the Executive Engineer make proper arrangements for the satisfactory execution of the works. The Taluk Sanitary Inspector of Arkalgud was in charge of the combined duties of the taluk and town of Arkalgud. This is not a satisfactory arrangement.

5. *Rural Water-supply.*—Out of a total grant of Rs. 19,916 including a contribution of Rs. 1,416 from the villagers concerned, only a sum of Rs. 3,340 was spent during the year. Government note with regret that the concession granted in this connection was not availed of by most of the villagers who did not contribute half the cost either in cash or in the form of labour.

The District Fund Administration Report of the Kadur District for 1915-1916.

Order No. 6500-2—L. B. 61-16-30, dated 9th April 1917.

Meetings.—Though there was an increase in the total number of meetings held in the Unions, only one Panchayat held the prescribed number of twelve meetings during the year. The attention of the Panchayats should be invited to the necessity for complying with the provisions of the rules regarding the number of meetings to be held for transaction of business.

2. *Collection and arrears.*—The collection of house tax in the Unions of the Chikmagalur and Tarikere Taluks was not satisfactory. The Amildars concerned should see that prompt action is taken to recover the outstanding arrears.

3. *Lapses under Public Works.*—The outlay on works executed in the Public Works Department exceeded the budget allotment by Rs. 2,031. The excess outlay should not have been incurred without proper sanction. In the Civil Department 34 per cent of the grant lapsed for want of good contractors and paucity of labour.

4. *Condition of roads.*—The condition of some of the roads was very unsatisfactory due, it is stated, to inadequate mileage allotment for repairs. This question and the question of a separate Engineering Staff for execution of works should receive due consideration of the Board with reference to the policy of Government laid down in paragraph 16 (4) of the order on the development of Local Self-Government in the State.

5. *Rural Water-supply.*—Out of the total grant of Rs. 17,500 for the sinking of wells under the rural water-supply scheme, a sum of Rs. 4,086 only was spent. This is not satisfactory. The Deputy Commissioner should take steps to induce the villagers to avail themselves of the concessions granted by the scheme by paying their contributions in advance or doing their share of the work. Suitable rates for work to be done by the contractors should be fixed in consultation with the Executive Engineers and prompt payments for work done should be made in order to ensure good work and prompt progress in the execution of the works. Sufficient quantity of dynamite may be purchased by the Deputy Commissioner and supplied to the contractors to obviate delay in sinking the wells.

6. *Medical relief.*—The opening of more Maternities and Dispensaries is necessary but has to lie over for want of funds till the District Board improve their finances. The need for a Female Dispensary at Tarikere is stated to be keenly felt and the Senior Surgeon with whom the question is pending is requested to expedite the submission of his proposals in the matter.

7. *General.*—Government are glad to note that the non-official members continued to evince much interest in the administration of the affairs of the Local Boards.

The District Fund Administration Report of the Bangalore District for 1915-16.

Order No. 6503-6—L. B. 61-16-31, dated 9th April 1917.

Condition of roads.—The condition of many of the roads is far from satisfactory, and inadequacy of the mileage allotment is ascribed as the reason. The District Board should investigate the question which is serious and improve their resources in order to maintain the roads in an efficient condition.

2. *Rural water-supply.*—The unspent balance of Rs. 14,603 out of the grant of Rs. 17,500 received for sinking wells during 1914-15 was supplemented by a grant of Rs. 24,000 during the year 1915-16. Credit has not however been taken for this grant in the accounts rendered by the Comptroller. The expenditure incurred on this account, *viz.*, Rs. 13,271 has not been debited to the proper head of account, *viz.*, "Drinking Water Wells Fund." The Comptroller is requested to have the discrepancy rectified.

3. *Veterinary Hospital.*—The question of locating the Hospital in a more central place within easy reach of the public should receive early attention.

4. *Vaccination.*—The total number of persons vaccinated fell from 17,189 in the previous year to 12,845 during the year. The reasons adduced for the decrease, *viz.*, absence of vaccinators on leave and failure to enlist public confidence on the part of the acting men, are not quite satisfactory.

Union Panchayat Meetings.—Out of the twenty-seven Union Panchayats only ten met not less than the prescribed number of twelve times and three held less than six meetings. This is not satisfactory. The Chairman should see that the Panchayats meet regularly.

2. *Public Works.*—Out of the budget allotment for Public Works to be executed by the Civil Department with the exception of wells 50 per cent was allowed to lapse during the year. The lapses were particularly heavy in the Sira and Pavagada Taluks. The Amildars concerned, *viz.*, Messrs. N. Srinivasa Rao and V. Gopala Rao, should have bestowed greater attention on the execution of the works.

3. *Communications.*—The condition of many of the roads is not satisfactory. The District Board should take steps to improve their resources and try to maintain the roads properly.

4. *Rural Water-supply.*—Out of the total grant of Rs. 30,500 for sinking wells in the rural parts, a sum of only Rs. 17,853 was spent during the year. This is not very satisfactory. Government note with displeasure that the Amildars of the Maddagiri, Chiknayakanhalli, Pavagada and Kunigal Taluks and the Deputy Amildar of the Turuvekere Sub-Taluk did not evince the required amount of interest in this work. Checking of estimates and work bills is reported to involve heavy work on the existing establishment, but it is for the President to make satisfactory arrangements in this repect.

The District Fund Administration Report of the Chitaldrug District for the year 1915-16.

Order No. 6510-2—L. B. 61-16-33, dated 9th April 1917.

Meetings.—It is not satisfactory that in the case of some Taluk Boards the meetings had to be adjourned for want of a quorum and that in the case of Unions only five of them met the prescribed number of times. Government hope that members will evince greater interest in the working of these institutions and arrange to hold at least the prescribed number of meetings annually for the transaction of business.

2. *Demand, Collection and Balance.*—The total demand under house and shop taxes in the unions including previous arrears was Rs. 27,149 of which Rs. 13,972 was collected and Rs. 1,890 remitted, leaving Rs. 11,287 uncollected at the end of the year. The outstandings are very heavy and the Chairman concerned should take prompt steps to collect the same at a very early date.

3. *Rural Water-supply.*—Out of a total sum of Rs. 41,571 made available for expenditure for rural water-supply during the year, nearly Rs. 23,000 was allowed to lapse owing to late commencement of work in some cases and to want of competent contractors, labour, etc. Steps should be taken to arrange for satisfactory execution of works in due time.

4. *Veterinary Dispensary.*—It is observed that the only dispensary in the District has no proper accommodation and the supply of instruments and appliances is insufficient. The matter is referred to the Revenue Commissioner for remedy of these defects.

5. *Audit of accounts.*—The list of questions recently prescribed for embodying the result of the audit of the District Fund accounts by the Finance Committee is stated to be very elaborate and the President feels doubtful whether the Finance Committee can find the required time to make such a detailed audit. The importance of a thorough audit by the Committee cannot be over-emphasised and the President is requested to arrange for a regular and thorough audit of the accounts by the Finance Committee.

The District Fund Administration Report of the Kolar District for 1915-16.

Order No. 6514-7—L. B. 61-16-35, dated 9th April 1917.

1. *Union income and expenditure.*—It is observed that so much as 11% of the revenue in Unions remained unutilized during the year. The whole of the income realised ought to have been spent.

2. *Demand, collection and balance.*—Out of the total demand of Rs. 2,17,833 a sum of Rs. 1,56,275 was collected and Rs. 464 remitted, leaving Rs. 61,094 uncollected at the end of the year. The arrears exceeded Rs. 1,000 in each of the taluks of Goribidnur, Chintamani and Bowringpet. The Amildars of these taluks have evidently not bestowed proper attention on the affairs of the Unions and they should take special measures for the reduction of the heavy arrears.

3. *Condition of roads and separate Engineering establishment for District Fund Works.*—The District Board urge that the roads have not been maintained in a satisfactory condition by the Department of Public Works and that there is a lack of supervision by the Public Works Department. The Chief Engineer is requested to investigate into the matter and make adequate arrangements for the proper maintenance of the roads. The attention of the District Board is drawn to the order on the Development of Local Self-Government regarding special Public Works staff for District Boards.

4. *Rural water-supply.*—The unspent balance of Rs. 9,294 out of the grant of Rs. 10,000 during the year 1914-15 was supplemented by a further grant of Rs. 25,000 during 1915-16. Out of Rs. 34,924 thus available for expenditure, as much as Rs. 19,248 was not utilized. This is not satisfactory. The difficulties enumerated in the report which prevented the full utilization of the grant could have been overcome with some enthusiasm on the part of the local officers concerned.

5. *District Board Railways.*—The revenue from the railway for the period it has been working has not yet been adjusted and the present system of working the line is reported to entail heavy loss to the Board. The Secretary to Government for Railways is requested to take prompt action in the matter in consultation with the Deputy Commissioner.

6. *Vital Statistics.*—The large increase in the number of births over the previous year (14,314 against 13,251) has not been commented upon in the report. It is hoped that the figures furnished are accurate.

7. *Veterinary Dispensary.*—The Dispensary continued to be popular. The provision for a trained farrier, the supply of some additional instruments and the extension of the present dispensary building in order to provide for both in and out-patients are reported to be necessary to render the institution more useful. The Revenue Commissioner is requested to take necessary action in the matter.

Meetings.—Though there has been an increase in the total number of meetings held by the panchayats, yet it is observed that many of the Union Panchayats did not hold even half the number of meetings required by the rules and that some of them did not meet at all. The Panchayats should be advised to hold at least the prescribed number of meetings every year.

2. *Collection work.*—Prompt steps should be taken to realize the arrears under house tax which amounted at the end of the year to Rs. 41,411.

3. *Communications.*—Though the District Fund roads maintained by the Public Works Department were all reported on the whole to be in fair condition, yet there have been complaints that the Yelwal-Hassan road, the Hunsur-Begur road, the T.-Narasipur-Chamrajanagar road, and Hunsur-Yedatore road were not in good condition. The increase of mileage allotments should engage the attention of the District Board.

4. *Vaccination.*—There was an appreciable fall in the number of vaccinations as compared with the previous year. No reason has been ascribed therefor and the attention of the President is invited to this omission.

Paragraph 20 of Government Order No. 3005-55—Ml. 133-16-1, dated the 16th November 1916 approving of the recommendations of the Local Finance Committee as regards the abolition of the Local Funds General and the transfer of the charges now debited to that fund to Government.

Order No. 6544-71—L. B. 103-16-1, dated 10th April 1917.

Government are pleased to direct—

1. That with effect from the 1st July 1917 the Local Funds General, as a separate Fund, be abolished;

2. That 67% of the cess on Excise, Forest and other heads of revenue, excluding Land Revenue, be credited to the District Funds concerned and in the local area under the sanitary administration of the Kolar Gold Fields' Sanitary Board, to its funds; and the balance, *viz.*, 33% to the Village School Fund as heretofore;

3. That, as the transfer of charges from the Local Funds General to State Funds proposed in the order read above affects the budgets of the Education, Medical and Agricultural Departments, the heads of the Departments concerned will incorporate in their budgets from the year 1917-18 onwards the receipts and expenditure in respect of the marginally noted items, the contribution of one-third of the charges of the Indigenous Hospital at Mysore paid by the Mysore City Municipal Council being credited to the State Medical Budget;

1. Education—Industrial and other Schools.
2. Medical—Indigenous Hospital in Mysore and grant-in-aid to Pasteur Institute, Coonoor.
3. Agriculture—Veterinary Hospitals and Dispensaries and Dasara Exhibition.

4. That the balance in favour of the Local Funds General at the end of the year 1916-17 together with the balance of the loan given to the Chikmagalur Municipal Council for water works be credited to the District Boards and the Kolar Gold Fields Sanitary Board in the proportion of their average cess revenue for the last three years.

5. That the works undertaken by the Public Works Department from this fund and remaining incomplete at the end of the current official year be pushed on to completion from State Funds;

6. That the annual instalment of Rs. 3,300 which is being paid by the Chikmagalur Municipal Council towards the repayment, with interest, of the loan for the town water-supply project be credited to the Kadur District Board, the balance of the loan being regarded as having been given by that Board out of the share of the L. F. G. credited to it; and

7. That the question of proportionately raising the Public Works Department Budget Grant for completing the incomplete Local Fund General works and for putting in hand fresh works the cost of which was to have been met from this fund, be disposed of separately in the Public Works Secretariat.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Correspondence ending with letter No. G. 124 dated the 30th October 1916, from the Senior Surgeon in Mysore submitting for orders a revised draft of a scheme for the establishment of a Medical School in Bangalore.

Order No. 6858-62—Med. 31-16-7, dated 28th April 1917.

Under an arrangement approved by the Government of Madras in the year 1870, the State Medical pupils are being admitted into the Medical Schools in the Madras Presidency and given the training necessary for employment as Sub-Assistant Surgeons.

2. In view of certain difficulties recently expressed by the Government of Madras in the matter of finding sufficient accommodation in the several schools of the Presidency for the large number of students seeking admission therein, Government consider that time has now come to make local arrangements for the training of Sub-Assistant Surgeons required for service in the State. The scheme now submitted by the Senior Surgeon seems suitable and is generally approved. A memorandum indicating the lines for working the institution as approved by Government is appended to this order.

The Senior Surgeon is requested to submit for the orders of Government a list of lecturers with the remuneration suggested in each case. As the work will fall outside the present legitimate duties of officers of the Department, their wishes in regard to the remuneration for the lecturing work should be consulted. The question of appointing a few-whole time lecturers on important subjects should also be considered and reported upon in due course.

3. The Mysore Medical School will be started on the 1st July 1917, with a small batch of sixteen first-year pupils, say two from each district, and the Senior Surgeon is requested to take all necessary action in the matter including the provision of the requisite funds in the budget for the year 1917-18.

4. In the meantime, the Chief Engineer is requested to cause the plans and estimates for the necessary buildings to be prepared in consultation with the Senior Surgeon and in conformity with the rules issued with Government Order No. 2859-61—Ml. 246-15-3, dated the 11th November 1916, and to provide for the work in the next year's Public Works budget.

5. The Medical Officer in charge of the Victoria Hospital, Bangalore, will be the Principal of the Medical School as proposed by the Senior Surgeon.

6. The question of instituting the L.M.S. Degree with suitable provision for fees to Lectures, etc., may be considered and suitable proposals submitted by the Senior Surgeon within three months.

No. 6858-62—Med. 31-16-7, dated 28th April 1917.

MEMORANDUM REGARDING THE MEDICAL SCHOOL IN BANGALORE.

Scope and Object.

The Medical School is primarily intended to train Sub-Assistant Surgeons required for the Mysore Subordinate Medical Service. When, however, accommodation is available, admission will be given to candidates desiring to qualify themselves as Private Medical Practitioners, preference being always given to natives of Mysore over outsiders. The development of the school, in course of time, to the grade of a College preparing candidates for Medical Degrees, will be kept in view.

Qualifications for admission

Candidates for admission to the Sub-Assistant Surgeon's course should not be less than 16 or more than 22 years of age; should produce a certificate of good moral character signed by the Head Master of a recognised High School or any Gazetted Officer of the Mysore Service, a physical fitness and vaccination or revaccination certificates according to the rules relating to the public service; and a certificate of having passed the Mysore Secondary School Leaving Certificate Examination or any other equivalent examination, such as the Matriculation Examination of any Indian University.

Rates of Fees.

Each student will have to pay an admission fee of Rs. 2, a tuition fee of Rs. 36, per annum and an examination fee of Rs. 15, for the final (or qualifying) examination, besides providing himself with the necessary books and instruments. In the case of stipend holders, the cost will be borne by the Medical Department.

Course of Study.

The course of studies for the Sub-Assistant Surgeon's qualification will extend over a period of four years, the subjects being distributed as follows.—

First year.

1st Term.	*2nd Term.*
Chemistry.	Physics.
Anatomy.	Anatomy
Dissections.	Dissections.
Physiology.	Histology and Chemical and Experimental Physiology.

Second year.

Anatomy.	Anatomy.

Materia-Medica and Therapeutics.	Practical Pharmacy.

The students will be required to attend the outpatients' department in the Victoria Hospital in the mornings and evenings.

Third year.

Medicine.	Bacteriology and
Surgery.	Tropical Medicine
General Pathology.	Forensic Medicine.
Hygiene.	Lunacy.

During the period the students will be made to undergo a clinical course in the hospitals (3 months dressing, 3 months in Medical wards, 3 months in Surgical wards, 2½ months in the Lunatic Asylum and 15 days in Vaccine Institute).

Fourth year.

Medicine.	Operative Surgery.
Surgery.	Diseases of Women and Children.
Midwifery.	Ophthalmology.
	Throat, nose and ear diseases.

The clinical course in the fourth year will consist of 3 months in the Maternity, 3 months in the Ophthalmic Hospital and the rest in the Medical and Surgical wards of the Victoria Hospital.

At the end of each year there will be an examination in the subjects studied during the year, on the results of which promotion to the next higher class will depend. A pass in the final year's examination will qualify for the diploma.

The Administration Report of the Public Works Department for the year 1915-16, forwarded by the Chief Engineer with his letter No. 11610, dated the 18th November 1916.

Order No. G. 13105-6—G. M. 301-16-7, dated 2nd April 1917.

Recorded.

2. *Administrative measures and changes.*—With a view to enable the Superintending Engineer, Krishnaraja Sagara Works, to give adequate attention to the measures necessary for the development of irrigation under the Reservoir, a Superintendent of Dam works was appointed to assist him in supervising the construction of the Dam in its further stages.

The Public Works Workshop was reorganized and constituted into an independent unit under a whole time Superintendent and Government are glad to find that these changes have tended to enhance the usefulness of the institution.

3. *Total grant and outlay.*– The total grant for the year under all heads was Rs. 72,05,976; and the expenditure amounted to Rs. 63,55,828 (exclusive of Rs. 2,91,837 spent from contributions) against a grant and outlay of Rs. 74,42,830 and Rs. 70,28,449 respectively in the preceding year. The average annual expenditure for the past five years was Rs. 51,24,813. The difference in outlay between the year under review and the previous year is accounted for by the comparatively smaller expenditure incurred on the Krishnaraja Sagara and allied works.

The year's operations of the Department resulted in a net lapse of Rs. 8,48,432 under all the fund heads against Rs. 4,90,981 and Rs. 3,20,315 respectively in the two preceding years, the lapse under State Fund Works alone amounting to as much as Rs. 7,30,739. While recognising the difficulties occasioned by the war in regard to the importation of foreign materials required for carrying out the programme of the year, Government consider that some of the other causes enumerated in paragraph 10 of the report as having contributed to the above result were not unavoidable and better progress could have been achieved if the officers concerned had taken more energetic and prompt action for the prosecution of the works entrusted to them.

It is reported that some works came to a standstill owing to the inadequacy of the departmental rates; while certain others had to be stopped for a time owing to the failure of the contractors and scarcity of labour. But these are difficulties which the departmental officers ought to have foreseen and provided against by timely and adequate measures calculated to ensure staisfactory progress.

4. *Public Improvement.*—The drainge schemes of the City and extensions of Bangalore did not make much headway during the year. Now that a Special Engineer is attached to the Municipality it is hoped that the President and the City Improvement Committee will be able to arrange, and the Public Works Department will also render them the necessary technical assistance, for the early execution of these improvements.

No. G. 13105-6—G. M. 301-16-7, DATED 2ND APRIL 1917.

5. *Krishnaraja Sagara Works.*—The most important event of the year in connection with this scheme was the confirmation by the Government of India of the award of the Arbitration Committee. The decision has enabled this Government to proceed with the second stage of the project. Good progress was made during the year, the dam having been raised to a height of 60 feet in the river-bed and to 75 feet at the flanks from 51 feet in the river-bed and 55 to 74 feet at the flanks in 1914-15. Government are glad to note that the water stored and available at present has rendered it possible to guarantee the supply of power under the first three installations as well as the power promised under the fourth installation of the Cauvery Power Scheme, without recourse to the costly channel conservancy operations hitherto carried on in the summer months for the past 8 or 9 years. In the direction of extension of irrigation which is another important purposer the Reservoir is intended to serve, the development of sugar-cane cultivation under the existing canals is receiving due attention.

6. *The Markanare Reservoir.*—The block system of irrigation introduced in the area commanded by the Reservoir is reported to be working satisfactorily and that the health of the canal area has shown signs of improvement.

7. *Other Works.*—The attempts to introduce scientific regulation of water under tanks are reported to be attended with some measure of success. Government desire that the experiment should be conducted on a more extensive scale. Every endeavour should be made to associate the people concerned and secure their co-operation in the working of the scheme, so that they may appreciate its advantages and receive the necessary training for themselves undertaking the work.

There has been a chronic complaint that the capacity of tanks is diminishing gradually owing to the accumulation of silt from natural causes. But the adoption of measures calculated to prevent silting can only be partially successful and for a time. In this connection, it has been suggested that the *achkats* under tanks should be revised so as to make them correspond with the capacities and the supply from the catchments thereof. The Chief Engineer is requested to take special steps to investigate this matter by selecting a number of typical tanks in each district during the current official year.

It is observed that some difficulty has been experienced in obtaining meters for metering house-service connections in the Mysore City. Government desire that the question of manufacturing such meters in the Public Works Workshop should be investigated and the requisite supply obtained from that institution, if possible.

8. *Inspection.*—Government observe that there is considerable room for improvement in the work done by the Divisional Officers under this head. The explanation of the Executive Engineers who have been found to have neglected the inspection of works and offices under their charge should be obtained and submitted to Government and they should be directed to give due attention to this important part of their duty in the future.

9. *General*—Government take this opportunity to impress upon all the officers concerned the great responsibility devolving upon them of seeing that the sanctioned works receive vigilant supervision and are completed early and that the budgetted grants do not lapse through want of foresight or energetic action on their part.

10. Government are pleased to note that, on the whole, the administration of the department was satisfactory.

It is also proposed to grant a stipend of Rs. 8 per mensem each to private pupils who are admitted for training.

3. Government agree that it is necessary to start a training school for Hindustani School Mistresses as proposed by the Inspector-General of Education and are pleased to sanction the opening of the school with establishment and other expenditure as recommended by him for a period of three years from the 1st June 1917.

The names and qualifications of the persons appointed as Assistant teachers should be reported to Government. The appointment of the Head Mistress will be subject to the sanction of Government. The Inspector-General of Education is requested to have a proper curriculum of training drawn up at once and submit the same for the information of Government.

Government Order No. 6590-2—Edn. 82-12-4, dated 30th December 1913, revising among other things the scale of pay of the Establishment of the Anglo-Vernacular Schools.

2. Letter No. 14519—569, dated 30th December 1916, from the Inspector-General of Education in Mysore, submitting proposals for improving the Anglo-Vernacular Schools maintained from State Funds.

Order No. 8044-5—Edn. 118-16-4, dated 2nd April 1917.

The Inspector-General states that it is not possible to secure men of the proper type as Head Masters of Anglo-Vernacular Schools at the low rates of pay now fixed for these appointments and has therefore proposed a revision of salaries to enable him to appoint good men. He also considers it desirable to provide a parallel course of study in Kannada up to the Lower Secondary Standard in these Anglo-Vernacular Schools so that the number of pupils passing in the Lower Secondary Examinations from these schools may be increased and a large number of qualified men may be available to meet the requirements of the public service and the Vernacular Upper Secondary course by giving the pupils an option to take the course either in Kannada or English. Government agree with the Inspector-General of Education and are pleased to sanction his proposals.

2. The present scale and the revised scale now sanctioned are as under:—

No.	Present scale	Average cost	No.	Proposed scale	Average cost
		Rs.			Rs.
1	Head Master on 75—10—125	108½	2	Head Masters on 75—10—125 ...	216½
4	Do on 50—4—70	253½	12	Do on 50—4—70 ...	760
3	Do on 50	150	10	Do on 50	500
24	Do on 40	960	24	Do on 40	960
39	Do on 30	1,170	23	Do on 30	690
71	Total ...	2,641½	71	Total ...	3,126½

Additional cost Rs. 485 per mensem.

The number of Assistant Masters on Rs. 30 will also be raised from 26 to 39 in order to provide the staff required for starting the parallel courses of Vernacular instruction in ten of the important Anglo-Vernacular Schools.

These proposals will come into effect from 1st July 1917. The total additional cost involved is Rs. 875 per mensem or Rs. 10,500 per annum and will be provided in the next year's budget.

3. Before filling up the appointments, the Inspector-General of Education is requested to submit for approval of Government a set of rules prescribing the qualifications required for the Head Masters of Anglo-Vernacular Schools and the mode of selection. The schools should be classified according to their importance, and posts with higher salaries attached to the more important institutions. None but

graduates should be eligible for appointments of Rs. 50 and above, an exception being made up to a limit of 20 per cent with the sanction of Government in the case of experienced teachers of special merit or those belonging to the backward communities, if otherwise qualified.

Government Order No. 2314-25—A. & I. 71-15-29, dated 19th September 1916 issuing a set of rules governing the admission of raiyats to short courses on the Experimental Farms.

2. Letter No. 214, dated 16th February 1917, from the Director of Agriculture in Mysore stating that the effect of the new rules published in the order read above has been to discourage the attendance of candidates at the first short course in the Marthur Farm on account of the heavy expenditure to be incurred for cart-hire and boarding arrangements and requesting that the short course rules in the matter of paying boarding charges from Government funds may be modified and that the sum of Rs. 80 incurred on behalf of the raiyats who attended the short courses held in pursuance of Government Order No. 5528-9—A. & I. 159-14-8, dated 25th June 1915 may be met from the provision under "18. A. 4 Experiments and Demonstration 8 Exhibits and Demonstration" in the current year's budget.

Order No. 8050-61—A. & E. 86-16-5, dated 2nd April 1917.

Under the circumstances explained by the Director, Government are pleased to direct that rule 1.b. referred to in the order read above be amended by the addition of the following words at the end thereof:—"provided that in the case of persons attending the Marthur Farm, who have received no financial help to meet the cost of travelling under clause 'a' of the above rule, they may be given their boarding charges in the same proportions from the respective sources mentioned in that clause."

2. The grant for each year should be fixed and the limit should not be exceeded.

Letter No. 460, dated 30th March 1917, from the Deputy Commissioner, Chitaldrug District, forwarding for sanction the marginally noted travelling allowance bills of his establishment deputed for duty at the last Dasara Exhibition at Mysore, as they contain, claims for allowances for halts exceeding ten days made at Mysore in connection with the Exhibition.

2. Correspondence ending with letter No. 2616, dated 5th April 1917 from the Secretary, Dasara Exhibition Committee forwarding for sanction similar travelling allowance bills of the establishments of the Kolar, Tumkur and Hassan Districts as noted in the margin and stating that the bills received from the Deputy Commissioners of other districts were returned to them countersigned for being forwarded to the Comptroller to Government for audit.

Order No. 8620-9—A. & E. 4-16-95, dated 28th April 1917.

The statement appended on the margin discloses that there is great disparity in the number of clerks deputed from each district, their pay and the period of their deputation. With a view to securing uniformity in this matter and to economising expenditure on this account, Government are pleased to direct that not more than one clerk should be deputed from each district, his pay should not exceed Rs. 25 to 30 and the period of deputation should not exceed one month.

District	Number of Clerks	Pay	Period of deputation	Total amount
				Rs a. p.
(1) Chitaldrug ...	1	30	17-9-16 to 1-11-16	
Do ...	2	25	17-9-16 to 27-10-16	118 6 2

Constitution of a Muzrai Establishment Fund.

No. 2538-49—Muz. 691-15-1, dated 2nd April 1917.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Government Proceedings No. 2066-7—Muz. F. 652-12-1, dated 16th May 1913, appointing a Committee consisting of Messrs. C. Srikantesvara Aiyar, Inspector-General of Police, and G. Aravamudu Iyengar, Muzrai Superintendent, for studying and submitting a report on the working of the Muzrai Department.

2. Letter No. 6—S. C., dated 26th January 1914, from the Members of the Committee submitting for the orders of Government a memorandum dealing with the reorganization of the Muzrai Department and among other matters the necessity that exists for placing on an efficient and satisfactory basis the establishments attending to Muzrai business in the various offices.

Order No. 2538-49—Muz. 694-15-1, dated 2nd April 1917.

The Government observe that the question of the establishments to be maintained in the various offices specially for Muzrai work requires to be placed on a satisfactory basis. At present there is no guiding principle in the allocation of hands or in the allotment of funds to meet the cost. The clerical and other assistance provided will have to be commensurate with the nature and volume of work attended to in the various offices and the cost will have to be borne by all the institutions benefiting by the service equitably according to their capacity.

2. The Government are accordingly of opinion that in order to meet the charges of such establishments maintained in the offices of the Muzrai Superintendent, the Comptroller, the Deputy Commissioners of Districts and Taluk Offices, a percentage contribution on the annual income of major and minor institutions should be levied, except in the case of institutions where there is not a sufficient margin of surplus. For the present, the proportion of this levy will be tentatively fixed at 5 per cent on the income of major institutions and 3 per cent on that of the minor institutions. This fund which will be known as the *Muzrai Establishment Fund* will take the place of the contributions which are now being levied from certain institutions only, and will be utilized wholly for meeting the cost of such special establishments.

3. A careful preliminary investigation of the income, expenditure, and immediate requirements of the various Muzrai institutions will have to be undertaken before the actual resources of the fund can be accurately determined. The Muzrai Superintendent will immediately take up the work and submit a detailed report within six months with a complete scheme of special establishments necessary for carrying on the Muzrai work in the various offices. If, in order to the expeditious completion of this work, any special establishment should be required temporarily by the Muzrai Superintendent, he may submit proposals for the consideration of Government.

Re-organization of the Muzrai Department.

No. 2463-513—Muz. 82-14-2, dated 2nd April 1917.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Read—

Government Proceedings No G. 1600-39—G M. 1-08-2, dated 7th September 1908, directing the amalgamation of the Muzrai Secretariat with the General and Revenue Secretariat and reappointment of the Muzrai Superintendent to be in administrative as well as the executive charge of the Department.

2. Government Proceedings No. 2066-7—Muz F. 652-12-1, dated 16th May 1913, appointing a Committee consisting of Messrs. C. Srikantesvara Aiyar, Inspector-General of Police and G. Aravamudu Iyengar, Muzrai Superintendent, for studying and submitting a joint report upon the organization and working of the Muzrai Department.

3. Letter No. 325, dated 8th September 1914, from the Members of the Muzrai Committee, submitting for the orders of Government a supplemental Memorandum examining the present system of work and dealing with the powers and duties of the Muzrai Superintendent.

Order No. 2463-513—Muz. 82-14-2, dated 2nd April 1917.

The Government have taken into their careful consideration the report submitted by the Committee appointed in the order of 16th May 1913, read above. One of the points dealt with by the Committee has reference to the powers and duties of the various officers of the department. On this point the Government agree with the Committee in thinking that the arrangements laid down in the Government Order of 7th September 1908, require modifications in certain respects with a view to secure greater efficiency in the administration of the Muzrai Department. Owing to the fact that the Muzrai Superintendent is largely occupied with the heavy Secretariat work which devolves on him under the present arrangements he is not in a position to devote that amount of time and attention to the systematic inspection and supervision of Muzrai institutions which the importance of the work demands. It has, therefore, become necessary to devise a scheme which, while giving the Muzrai Superintendent greater freedom to move about and more time and scope for supervision of institutions, initiation of reforms and rectification of abuses, will also obviate unnecessary duplication of work in the Secretariat and allow of the intimate personal knowledge and experience of the Head of the Department being utilized in the disposal of matters coming up before Government.

2. With this object, the Government direct, in the first place, that the Muzrai Superintendent, while continuing to be shown as graded among Deputy Commissioners, be also *Ex-officio* Joint Secretary to Government, so far as work in the Secretariat pertaining to the Muzrai Department is concerned, and secondly that he be given the aid of a competent officer of the grade of an Assistant Commissioner, who will be both an Assistant Secretary to Government and Office Assistant to the Muzrai Superintendent. The Assistant should be able to relieve him of much of his routine work and also help in inspection and other work.

3. A systematic inspection of Muzrai institutions both those within the State and those outside will hereafter form an important part of the Muzrai Superintendent's duties and he will be expected to be on tour on an average for about a fortnight every month. His tour should be arranged according to a fixed programme month to month, his notes and reports being submitted to Government, when necessary, and copies sent to Deputy Commissioners for information.

4. With a view to further decentralization, the list of powers and duties appended to the order of 7th September 1908, will be revised as shown in the statement appended. But the Muzrai Superintendent will continue as heretofore to advise Government on all questions of general policy and as the executive Head of the Department, his powers and responsibilities especially in regard to noting defects and suggesting improvements will remain unaffected.

No. 2463-513—Muz. 82-14-2, dated 2nd April 1917.

5. In view of the inadequacy of the existing staff and of the additional work and responsibilities entailed by the present reorganization, the clerical and menial establishment of the Muzrai Superintendent's Office will be revised, as shown below at an additional cost of Rs. 168 per mensem from State Funds and Rs. 225 per mensem from Muzrai Funds.

Existing establishment	Number	Cost	Establishment as sanctioned	Number	Cost	Increased cost
From State Funds—		Rs.	From State Funds—		Rs.	Rs.
Clerical ...	4	150	Clerical	6	275	125
Menial ...	8	64	Menial	12	107	43
From Muzrai Funds—			From Muzrai Funds—			
Clerical ...	6	128¾	Clerical	10	353¾	225

6. The cost of the establishment debitable to Muzrai Funds will be met from the "Muzrai Establishment Fund" when it is finally constituted. In the meanwhile, the increased cost under this head will be charged in equal proportion to the marginally noted Muzrai institutions which have a large unexpended surplus annually and which do not at present contribute towards the establishment charges.

Re-classification of Muzrai Institutions and regulation of their Management, Control and Supervision.

No. 2514-25—Muz. 371-13-2, dated 2nd April 1917.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Proceedings No 2066-7—Muz. F. 652-12-1, dated the 16th May 1913, appointing a Committee consisting of Messrs. C. Srikantesvara Aiyar, Inspector-General of Police, and G. Aravamudu Iyengar, Muzrai Superintendent, for studying and submitting a joint report upon the organization and working of the Muzrai Department.

2. Letter No. 6—S. C., dated the 26th January 1914, from the members of the Muzrai Committee submitting for the orders of Government a joint memorandum dealing with the general principles relating to the re-organization of the Muzrai Department and the lines upon which the affairs of the individual institutions under its control should be regulated.

Order No. 2514-25—Muz. 371-13-2, dated 2nd April 1917.

The report of the Committee has been under the careful consideration of Government and they agree with the Committee in thinking that a fresh classification of Muzrai institutions with a separate scheme of management for each class is called for, with a view to systematize the control and supervision over the work of these institutions Government accordingly direct that the following revised classification of Muzrai institutions be given effect to :—

1st class.—Those having a total income from all sources exceeding Rs. 1,000 per annum and a few others of special importance to be specified from time to time.

2nd class.—Those with an income ranging between Rs. 100 and Rs. 1,000.

3rd class.—Those with an annual income of less than Rs. 100.

2. As regards the first class or "Major" institutions, the actual management will continue as at present with the local revenue officers assisted by an advisory body of Dharmadarsis appointed by Government; and the conduct of business of this body will be regulated by the "A" set of rules already published under Section 15 of the Muzrai Regulation and appended hereto.

The second class or "Minor" institutions will be left to the care of Dharmadarsis, who will be appointed by Deputy Commissioners in consultation with the Muzrai Superintendent. They will exercise all the powers and discharge all the duties defined in the "B" set of rules appended hereto.

No elaborate scheme of management is necessary in the case of the third class or "Village" institutions, which will be left in charge of village Panchayets where such exist, or in the care of the Pujaris under the control of the local officials the Patel and Shanbog, if in a revenue village, or of the holders of similar offices, if in a municipal town.

Where two or more institutions are within easy distance of one another and are capable of being clubbed together for purposes of administration, they may be treated as a single unit and classified according to the total income of the constituent institutions, or one or more of them may be treated as subordinate institutions attached to a major one.

No. 2514-25—Muz. 371-13-2, dated 2nd April 1917.

3. The Deputy Commissioners and the Muzrai Superintendent should arrange at an early date, not later than six months, for proper scales of income and expenditure being drawn up in the case of all major and minor institutions and for their revision where necessary.

4. Detailed instructions should be laid down for the maintenance and audit of accounts, and due provision made for effective supervision over the management and discipline of all classes of institutions by local officers and by the Muzrai Superintendent. The Muzrai Superintendent is requested to submit separately for the orders of Government a well considered set of instructions for the guidance of the various Muzrai officers in this respect.

5. It is also desirable to provide a special agency, at least for some years to come, for the independent and systematic check of the work of the various institutions. With this object, two units consisting each of an efficiency audit officer and an account audit officer will be appointed to work under the Muzrai Superintendent for a period of three years to start with. The cost of this establishment which will be about Rs. 4,240 per annum as shown in the margin will be met from the "Muzrai Establishment Fund" and entertained as soon as this fund is constituted.

No. 251-1-25 – Muz. 371-13-2, dated 2nd April 1917.

A.

Under Section 15 of the Muzrai Regulation.

1. In the case of religious and charitable major institutions borne on a list to be prepared by Government, the appointment of Dharmadarsis will be made by Government on the recommendation of the Deputy Commissioner in the appended form.

The list will contain all religious institutions with an annual income of and above Rs. 1,000, all Annachattrams maintained by Government funds and any other institutions the direct management of which Government may desire to reserve.

Serial No.	Name	Caste	Age	Occupation or position	Remarks as to local influence, interest, etc.

II. The number of Dharmadarsis shall not be less than five or more than nine and any one of them shall be appointed as Convenor of meetings. The person thus appointed shall convene the meetings and correspond with the Government Officers and others in the name of the body.

III. The Dharmadarsis will advise and co-operate with the local Muzrai Officers in matters relating to the internal management of the institutions for which they are appointed.

IV. The Dharmadarsis of each institution or group of institutions shall meet at least once in a month and oftener, if necessary, to discuss the affairs of the institutions under their supervision. Such meetings should be held in the premises of the institution and one half the total number of Dharmadarsis will form the quorum. The Convenor shall preside at the meeting, and in his absence one of the Dharmadarsis elected for the occasion shall preside and sign the proceedings. The decision of the majority shall be considered to be the resolution adopted by the body. The President shall have a casting vote, if the opinion of the members should be equally divided. The Amildar of the taluk may, whenever he considers necessary, attend such meetings.

V. The Muzrai Superintendent may also convene meetings of Dharmadarsis for purposes of discussion and consideration of matters relating to the institutions visited by him. The proceedings of such meetings shall also form part of the Dharmadarsis' record.

VI. The proceedings of the meetings of the Dharmadarsis shall be recorded in a book to be kept for the purpose; and copies of the proceedings shall at once be forwarded to the Amildar under the signature of the convenor or other Dharmadarsi presiding at such meeting.

VII. The Amildar will immediately on receipt forward a copy of the proceedings to the Sub-Divisional Officer or the Deputy Commissioner and the Muzrai Superintendent with such observations thereon as he desires to make.

VIII. The monthly accounts of receipts and expenditure in the institution shall, before submission to the Amildar by the Parpattegar or other official of the institution, be scrutinised and checked at a meeting of the Dharmadarsis; and the result of the scrutiny shall be recorded in the proceedings book and an extract thereof shall be appended to the accounts submitted to the Amildar. For purposes of the examination of the monthly accounts, the Dharmadarsis shall be given free access to all registers and records maintained in the institution.

IX. In all matters of routine relating to the internal management of the institution, the resolutions adopted at the meetings of the Dharmadarsis shall be given effect to, if approved by the Amildar. But where the Amildar disagrees, he shall forward with due despatch a copy of the proceedings to higher authority for orders, with a brief statement of his reasons for disagreeing with the resolutions of the Dharmadarsis. Pending further orders in the matter, the Amildar may defer execution of the resolutions of the Dharmadarsis, and in urgent cases take such action as may be immediately necessary.

X. The supervision of the daily routine affairs of the institution may be undertaken by individual Dharmadarsis in rotation or otherwise as may be resolved upon by them in a regular meeting.

XI. It will be the duty of the Dharmadarsis to see that daily and periodical ceremonies are performed at the regulated time and in the prescribed manner and that the amounts assigned therefor are properly utilised.

No. 2514-25—Muz. 371-13,2, dated 2nd April 1917.

XII. Subject to the general or special orders of the Deputy Commissioner, the Taluk Amildar may, at his discretion, delegate to the Dharmadarsis either individually or as a body, any of the following acts or duties:—

(i) The periodical inspection of the jewels and other valuable properties belonging to the institutions in the presence of the servant or other person entrusted with the custody thereof. The result of the inspection should at once be reported to the Amildar;

(ii) the opening of the Golaka box in the presence of the chief servants of the temple and remitting the realisations without delay to the Taluk Treasury;

(iii) the conduct or supervision of any Santarpane, Utsava or other celebration on any special occasion;

(iv) the supervision of petty repairs; and

(v) grant of casual leave (not exceeding three days) to servants.

XIII. The Dharmadarsis shall not dispose of any properties belonging to the institution in any manner whatsoever except on the previous written order of the Amildar or higher Muzrai Officer competent to deal with the same.

XIV. The Dharmadarsis shall not be competent to punish any servant of the institution but may report to the Amildar any irregularity or misconduct on the part of any servants of the institution; and the Amildar thereupon shall proceed to take such action in the matter as may be called for.

XV. Every Dharmadarsi shall hold his office for a period of five years from the date of his appointment, unless removed within such period for reasons hereinafter mentioned.

XVI. Any Darmadarsi failing to attend more than three consecutive meetings of the Darmadarsis or being absent from the station for more than three months together will be liable to be removed from the office.

XVII. The Deputy Commissioner may, for any sufficient reason, recommend to the Government the removal of any Dharmadarsi from his office.

XVIII. Whenever a Dharmadarsi vacates his office or is removed from office before the expiry of the term of five years, the vacancy may be filled up by the appointment of another person such person holding the office only for the unexpired portion of the aforesaid term.

XIX. All appointments and removals of Dharmadarsis shall be duly notified in the *Mysore Gazette*.

XX. The foregoing rules shall apply *mutatis mutandis* to Naxarin-e-owkoffs appointed for Mahomedan Muzrai Institutions.

B.

Under Section 15.

I. In the case of minor religious and charitable institutions the power of appointing Dharmadarsis for control and supervision is delegated to the Deputy Commissioner.

II. The number of Dharmadarsis shall not be less than three or more than five for each institution or group of institutions.

III. Except in matters which may hereinafter be excepted and subject to the general or special direction of the Deputy Commissioner, the Dharmadarsis so appointed shall exercise full powers of management in the affairs of institutions placed in their charge. They shall, however, be subject to the provisions of Section 13 of the Regulation and the rules framed thereunder.

IV. In the following cases, powers of disposal will rest as heretofore in the Amildars or other Muzrai Officers:—

(*a*) Conversion or disposal of any of the properties movable or immovable, belonging to the institution.

(*b*) Investment of any institution funds.

(*c*) Incurring of any expenditure outside the scale fixed for the institution or appropriating funds provided for one purpose to another.

(*d*) Variation from mamul, in the matter of observances of honors granted to individuals.

(*e*) Appointment, punishment, suspension or dismissal of Vahivatdar, Parpattegar, Shanbhog, Archak and similar offices of honor or in cases where a hereditary right is alleged.

No. 2514-25—Muz. 371-13-2, dated 2nd April 1917.

V. The Dharmadarsis shall meet at least once in a month or oftener, if necessary, and shall keep a record of their proceedings. A copy of such proceedings and an extract from the monthly accounts should be submitted to the Amildar.

VI. It shall be considered to be the duty of the Dharmadarsis to see that daily and periodical ceremonies are performed at the regulated time and in the prescribed manner and that the amounts assigned therefor are properly utilised, that the buildings and other appurtenances of the institution are kept in good repair and in sanitary condition, and that every opportunity is taken advantage of to make the institution as useful as possible to the public.

VII. Every Dharmadarsi shall hold his office for a period of five years from the date of his appointment unless removed within such period for reasons hereinafter mentioned.

VIII. Any Dharmadarsi failing to attend more than three consecutive meetings of the Dharmadarsis or being absent from the station for more than three months together will be liable to be removed from office.

IX. The Deputy Commissioner may, for any sufficient reason which shall be recorded and communicated to the party concerned, remove any Dharmadarsi from his office. An appeal against such an order will lie to Government in the Muzrai Department.

X. Whenever a Dharmadarsi vacates his office or is removed from office before the expiry of the term of five years, the vacancy may be filled up by the appointment of another person, such person holding the office only for the unexpired portion of the aforesaid term.

XI. All appointments and removals of Dharmadarsis will be duly notified by the Deputy Commissioner in Part II of the *Mysore Gazette*.

Government Proceedings No. 2066-7—Muz. F. 652-12-1, dated the 16th May 1913, appointing a Committee consisting of Messrs C. Srikantesvara Aiyar, Inspector-General of Police and G. Aravamudu Iyengar, Muzrai Superintendent, for studying and submitting a joint report upon the organisation and working of the Muzrai Department.

2. Letter No. 6—S. C., dated the 26th January 1914, from the Members of the Muzrai Committee submitting for the orders of Government a memorandum dealing with the general principles relating to the reorganisation of the Muzrai Department and among others the direction in which the surplus funds of Muzrai Institutions may profitably be utilised.

Order No. 2526-37—Muz. 391-15-1, dated 2nd April 1917.

The report of the Committee and the additional information supplied by the Muzrai Superintendent regarding the estimated resources of institutions have been under the consideration of Government for some time past. While on the one hand there are a number of institutions which have large surpluses at their credit and recurring savings from their annual income, there are other important institutions which have no funds of their own to look to for any special improvements or even ordinary repairs. The State Grant of Rs. 10,000 annually provided in the Budget to aid in the construction and repairs of Muzrai institutions has been found to be inadequate. The Government consider that the surplus funds of the more favoured institutions cannot be utilised for a more useful purpose than the improvement of other important though poorer institutions.

2. The Government are accordingly pleased to direct that the available surplus funds at the credit of the various Muzrai institutions under Government management in the State be, subject to the limits indicated below, consolidated and formed into a "GENERAL MUZRAI FUND" to be invested and the interest therefrom utilised for the benefit of Muzrai institutions generally and also for other purposes not inconsistent with the objects of the original endowments.

3. In determining the proportion of the surpluses to be operated upon, the following considerations should be kept in view:—

(1) Where the institution needs repairs, the amount necessary therefor should be fully set apart, and only the balance appropriated.

(2) A further sum of from Rs. 2,000 to Rs. 4,000 according to the needs and importance of the institution concerned, should be reserved in each case for the future requirements of the institution.

(3) The funds of non-Hindu institutions should be kept and dealt with separately from the funds of Hindu institutions.

4. The actual amount that can be made available from the surpluses at the credit of the various institutions for incorporation in this Fund, will have to be decided after a careful enquiry into their existing conditions and future requirements, and the Muzrai Superintendent is requested to take up the work systematically and submit a detailed report on the subject within six months.

No. 2526-37—Muz. 391-15-1, dated 2nd April 1917.

5. In the meantime, it is understood from the forecast estimate made by the Muzrai Superintendent that a sum of approximately six lakhs will be immediately available as the nucleus of the proposed Fund and that the interest earnings of this sum will be about Rs. 21,500. The Muzrai Superintendent proposes that an Engineering Establishment as shown in the margin may be provided out of this income for the inspection of the buildings and grounds attached to the various important institutions and for drawing up estimates for repairs and improvements, as also for scrutinising the plans and estimates received from Deputy Commissioners. In addition, the Muzrai Superintendent recommends that a grant of Rs. 10,000 may be made for special improvements to Muzrai institutions by way of supplementing the existing State Grant of Rs. 10,000. The Government approve of these recommendations and direct that they be given effect to as soon as final orders on the constitution of the Fund are passed.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. C. 1629, dated the 2nd December 1916, from the Revenue Commissioner in Mysore forwarding with his suggestions a copy of reference from the Deputy Commissioner, Mysore District regarding the curtailment of certain returns of revenue business in District Offices.

2. Government Order No. R. 2093-100, dated the 16th November 1901 directing the regular preparation of unanswered reference lists at the beginning of every month in the offices of Amildars, Sub-Division Assistant Commissioners and Deputy Commissioners of Districts.

3. Government Order No. R. 3456-66—R F. 3-1897-8, dated the 16th May 1904, prescribing a quarterly return showing the despatch of revenue business in the District, Sub-Division and Taluk Offices.

4. Government Order No. G 5203-51—E. A. 4-14, dated the 23rd November 1914, paragraphs 14, 15 and 16 regarding the monthly preparation and scrutiny of arrear lists in every office.

5. Rules 58 and 59 of the disposal number system amplifying the rules referred to in 4.

6. Government Order No. 727-34—E A. 8-15-2, dated the 28th October 1915, prescribing a half-yearly return of statistics of business for all Deputy Commissioners.

7. Government Order No. G. 8721-73—E. A. 33-14-1, dated the 11th February 1915, issuing a set of revised petition rules by which (Rule 24) every office receiving more than 50 petitions on the average during a year is required to submit a quarterly statement of pending petitions.

Order No. 160—E. A. G.—2, dated 10th April 1917.

In the letter read in paragraph 1 of the preamble, the Revenue Commissioner suggests the abolition of certain superfluous returns of business now submitted by Deputy Commissioners. The question, which had already attracted the notice of Government, is dealt with in detail in the notes of inspection of the Second Member of Council on the Deputy Commissioner's Office, Mysore. The present reference is apparently the result of the observations made in the said note.

2. In future the following arrangements will be adopted with regard to the business returns in the Revenue Department :—

(1) Amildars should submit quarterly business statements in the appended form (Appendix I) to their Sub-Division Officers who should review them regularly.

(2) Assistant Commissioners in charge of Sub-Divisions should similarly submit their quarterly business statements in the revised form (Appendix II) to the Deputy Commissioners who should similarly review them regularly.

Copies of reviews in both the cases should invariably be submitted to the next higher authority, *i.e.*, Assistant Commissioner to the Deputy Commissioner and the Deputy Commissioner to the Revenue Commissioner.

(3) The Deputy Commissioner should submit half-yearly business statements to the Revenue Commissioner in the form prescribed in Government Order No. 727-34—E. A. 8-15-2, dated the 28th October 1915. The Revenue Commissioner will forward them to Government with his own review thereon.

(4) The Revenue Commissioner will continue to submit to Government the half-yearly business statements of his office in the form prescribed in the Government Order No. 688-726—E. A. 8-15-1, dated the 28th October 1915.

(5) A list of papers pending for more than one year should be attached to the periodical business statements of the respective offices, classified according to length of duration.

No. 160—E. A. G.-2, DATED 10TH APRIL 1917.

3. Monthly lists of unanswered references need not be prepared in offices which have adopted the Disposal Number System, as the rules under that system require that the registers themselves should be examined every month, (*vide* Rule 59). In the case of offices that have not yet adopted the new system, however, monthly lists will continue to be prepared in accordance with the instructions conveyed in paragraphs 14 and 15 of the General Rules of Office Procedure.

4. The return of petitions prescribed by Government Order No. G. 8721-73—E. A. 33-14-1, dated the 11th February 1915 will in future be discontinued as the necessary information will be available in the business statement. Government Order No. R. 2093-100, dated the 16th November 1901 and the Revenue Commissioner's Circular No. 3025, dated 8th September 1910 regarding lists of unanswered references will be cancelled.

No. 31—E. A. G. 4 dated 23rd April 1917.

ANNEXURE.

Rules re the destruction of records in the offices of the Commissioner of Stamps, the Superintendent of Stamps and the Superintendent of the Stamp Factory, Bangalore.

All records will be divided into two classes:—

(i) Permanent and (ii) Temporary. The records falling under each class are detailed in the lists annexed to these rules.

2. Records classed as temporary may be destroyed after the periods noted against them calculated from the time to which they relate.

3. (*a*) The record-keeper or other official in charge of the records will keep the lists annexed to these rules corrected with reference to changes made therein from time to time.

(*b*) Drafting Clerks and assistants should mark on each paper disposed of by them, before it is sent to the official in charge of the records, whether it should be permanently retained or destroyed noting in the latter case, the year of destruction. These entries should be checked by the personal assistant to the Stamp Commissioner in the Stamp Commissioner's Office, and by the Superintendent of Stamps and the Superintendent of the Stamp Manufactory in their respective offices, or, in their absence, by the Manager of the Office of the Inspector-General of Registration and the Supervisors of the other two offices, respectively.

4. Not later than the 31st April of each year the official in charge of the records will prepare a list of records to be destroyed at the end of that official year and submit it for the sanction of the Commissioner of Stamps. On receipt of sanction the records will be destroyed by the official in July following, under the supervision of the officers referred to in para 3 (*b*), and a note entered in the list under the signature of the officer in whose presence the records were destroyed, that the records ordered to be destroyed were duly destroyed on such and such dates.

READ—

Letter No. 3232—C. R. 296, dated the 9th January 1914, from the Comptroller, Public Works and Railway Branch.

Order No. 629-32—P. W. 3539-42, dated 7th April 1917.

There are no local orders defining the powers of the Chief Engineer in regard to the purchase of articles of Indian and European manufacture, required by the Public Works Department, and under the existing practice, he exercises such powers up to the extent of the amount of sanctioned estimates for works, more or less on the basis of the rulings in the Government of India Public Works Code.

2. The conditions in Mysore are different from those in British India, and in the permanent interests of the Department, the Government of His Highness the Maharaja are pleased to rule that, in future, the Chief Engineer may order purchases only up to a limit of Rs. 10,000 and Rs. 30,000 for foreign and local materials, respectively. When in any case these limits are exceeded, proposals should be submitted to Government in the Public Works Department with definite recommendations for orders.

3. Except to the extent indicated in this order, the procedure for making purchases of stores, prescribed in Government Order No. Fl. 2760-809—G. F. 214-10, dated the 23rd December 1913, will continue to apply to the Public Works Department.
